

VILLAGE OF DRESSER

POLICY FOR BRUSH AND LEAF DISPOSAL

EFFECTIVE SEPTEMBER 8, 2008

BRUSH

The Public Works Department will Chip Brush during the Third week of the month starting in April and running through October weather permitting. Check out the calendar on our web page www.villageofdresser.com for chipping dates. This is a free service to the residents of Dresser. Upon pulling out the chipper the Public Works will pick up on all streets, which may take several days.

Please place all brush out at the curb side stacked with the butt end of the brush facing the street.

LEAVES

Residents are responsible for hauling all leaves, grass clippings, garden greens, and flowers to the Dresser Public Works Compost Transfer Site at the Village Garage located at 514 East Avenue North. There will be no curb side pick up.

No bags, containers, or garbage shall be left at the site.

Residents can haul to the Compost Transfer Site at any time from April through November.

****As a homeowner if you use a Custom Lawn Service and they have used a herbicide made by Dupont called IMPRELUS you cannot bring any material to the Dresser Public Works Compost Transfer Site – please contact the Village Office for other options. Thank you.**

Please call Jodi at the Village Office if you have further questions.
