July 12, 2018

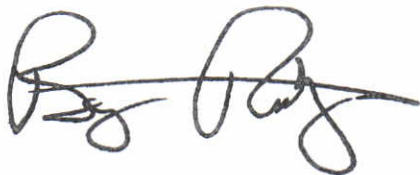

Dear Water Utility Customer:

On Wednesday, July 11, 2018 the Village of Dresser did an emergency chlorination shock to the water system. This is not a continuous chlorination feed. After consulting with the Wisconsin Department of Natural Resources the Dresser Water Utility did this in order to continue to keep our water supply safe during the water main construction project on Horsmann Avenue and Peterson Drive.

During this construction project the Dresser Water Utility may have to periodically shock the system in order to maintain safe drinking water.

If you have any questions or concerns regarding this please call the Village Office.

Sincerely,

A handwritten signature in black ink, appearing to read 'Bryan Raddatz', with a stylized flourish at the end.

Bryan "Fatboy" Raddatz
Village President
